"Motown in Motion at the Lexington Opera House last weekend - delivered an outstanding, solid performance - that paid authentic tribute to the music we all know and love from Motown! The performers charmed their attention to detail...transitions, lighting, pacing, and the amazing sound - all with a sense professionalism that made the group delightful to work with. The vocals were spot on, the band was terrific - and the audience was thrilled!"

"We at SKyPAC would like to thank the cast and crew of Motown in Motion for a great musical experience! We have had such wonderful comments from our patrons as to the quality of the show and how high the energy was from the performers. From a venue standpoint, the cast, the crew and the folks at Penguin Entertainment could not have been easier to work with. We would love to have this group return to Bowling Green in the future."
